The front seat's got buckets labeled hers and his  
We're looking up at the sky from the open road

Now we're back in motion in the right had lane  
We see the sun come peeking through the clouds again

# **IN THE CITY OF SHADOWS**

1996 © 2022 Roger Lienke

## **Verse 1**

In the city of shadows  
In the blue black of the night  
There's a someone who's keeping  
Their shades pulled down tonight

## **Verse 2**

So I sit by my window  
Though I don't know what for  
'Cause it's only a shadow  
I see anymore

## **Bridge**

I could sit forever sequestered this way  
And nothing would come from it  
But for one glimpse of you  
In the flesh one day  
What I wouldn't do for it

## **Verse 3**

In the city of shadows  
In the corner of my room  
I sit mulling over  
This vision I have of you

## **Tag**

This vision I have of you
