## **Verse 1**

Maybe it's your nature  
Maybe it's your style  
I'd walk a hundred miles  
To see your face  
Wonder in my mind's eye  
Staring into space  
Can you imagine  
Being in such a place

## **Chorus 1**

Well you know it's all come true  
And you're so good it makes me wanna cry  
Loving you in open sky

## **Verse 2**

My heart is coming open  
My spirit starts to fly  
Winging through the sky  
Into the night  
Love will last forever  
Love is blinding light  
As far as I can see  
It's shining bright

## **(Chorus)**

## **Chorus 2**

Yes you know it's all come true  
And you're so good it makes me wanna cry  
Loving you in open sky
