

THE SMELL OF ROSES

1988 © 1993 Roger Lienke

Verse 1

Mem'ries of passion that lasted for hours
Ribbon of moonlight around your hair
Cavern of trees and a mattress of flowers
The call of the wild on the midnight air

Chorus

Heaven puts angels in front of us
We fail to recognize
Treasures immeasurable are ours
Right in front of our noses
The smell of roses

Verse 2

We had a family – a child born to us
Spring turned to summer that's come and gone
Ashes to ashes – from cradle to dust
We have a love that will linger on

(Chorus)

Bridge

There's precious little love
In this world to go around – around – around
But I hear it in your voice
And I feel it in the sound – the sound – the sound
So talk to me tonight
And tell me everything's alright – it's alright

(Chorus)
