Verse 1

I shoulda realized – a lotta things before
If this is love – I can't take anymore
I should have known – what it's like to be blue
Oh my love what can I do without you – without you

Verse 2

Beg – steal or borrow – it's no good anymore
Why can't we be – like we were before
What is tomorrow – but a dream of yesterday
As I sit and wait for you – here today – (here today)

Bridge

On a summer's day we danced
And listened to the music fade away – fade away
Victims of circumstance
I'm missing what I cannot have
Today – today

Verse 3

You gave me a riddle – would you give me a clue
I don't have any idea – what to do
I'll wait forever – if you ask me to
But oh my love what can I do without you – without you

(Bridge)

(Verse 2)
