

# **GONE**

1997 © 2017 Roger Lienke

## **Verse 1**

There's a fog over Nashville – nobody can see  
Left my home in Atlanta for a house by the sea  
To the far side of Memphis this road's taken me  
Since I left – said goodbye – and was gone

## **Verse 2**

There's a butterfly riding 'neath my wiper blades  
Left her home in the swamp of the everglades  
She's flown hundreds of miles on this journey she's made  
Since she left – said goodbye and was gone

## **Bridge**

Fall begins – there's a chill in the wind  
It's not unusual in this time of year  
But you let me know a long time ago  
You'd be glad if I'd disappear

## **Chorus**

And now I'm gone – gone – gone – gone  
This time – this time I'm gone

## **Verse 3**

In the wide – wide open Oklahoma plain  
A fleet of trucks taking over the passing lane  
And the sun won't forgive me for causing you pain  
Since I left – said goodbye – and was gone

## **(Bridge)**

## **Chorus 2**

And now I'm gone – gone – gone – gone  
This time – I'm gone – gone – gone – gone  
This time – I'm gone – gone – gone – gone  
This time – I'm gone
