

HERE WITH ME

1997 © 2017 Roger Lienke

Verse 1

I got your number written down on my wall
And I have been thinking about giving you a call
Right next to my pillow that I sleep on at night
I keep your picture – so you're never out of my sight

Chorus

And I'm high on a mountain of love when you're here with me
'Cause you shine with a light that is bright as the stars could ever be
I'm impatient to have you – here with me

Verse 2

You gave me a reason when I thought they were all gone
I was sure I'd never need someone so bad – but I was wrong
That's why I've been thinking about giving you a call
And I've got your number written down on my wall

Chorus

And I'm high on a mountain of love when you're here with me
'Cause you shine with a light that is bright as the stars could ever be
And I'm so glad to have you – here with me
