

# **THE MIDDLE OF THE NIGHT**

© 2017 Roger Lienke

## **Verse 1**

We got to begin again - as we move closer to the end  
Stand in the light that's leaking in  
The middle of the night

## **Verse 2**

Honor the old but start anew - there is a daunting lot to do  
So light the lamp and plunge into  
The middle of the night

## **Verse 3**

Down deep inside the lies we hear - something truer that we hold dear  
Teaches us we need not fear  
The middle of the night

## **Verse 4**

In this paradox we face - something missing we can't replace  
So with our grief we now embrace  
The middle of the night

Oh!

## **Verse 5**

We got to begin again - as we move closer to the end  
Stand in the light that's leaking in  
The middle of the night
