

## PEACE

No weapons but love - no message but peace  
No weapons but love - no message but peace  
Through swirling white  
This black knight  
Rides a shining steed  
Cloaked in scarlet - booted in black  
With no sword at his side - shielded only by the wind  
Racing ahead of time  
A harbinger of fury  
In the storm at his back

No weapons but love - no message but peace  
No weapons but love - no message but peace  
To stem the rising tide  
The arms open wide  
To embrace the arms of conflict  
To hold them back - to hold them down  
To hold them deep inside  
With acknowledgement - with awareness  
With understanding - with love  
With conviction - with strength  
With compassion - with forgiveness  
With tolerance - with gentleness  
But no office  
No position - no executive power  
No weight of decision  
No bombs - no war

No message but love - no weapons but peace  
No weapons but love - no message but peace  
No bombs - no war  
No bombs - no war  
No weapons but love - no message but peace  
No dominance - no control - no oppression  
No more  
No more bombs - no war  
No weapons but love - no message but peace  
No message but love - no weapons but peace

No to war - no to war  
No war no more - no more war  
No more weapons but love - no message but peace  
No weapons - love  
No message - peace
